

Quarterly Report on Agency Services to Floridians with Developmental Disabilities and Their Costs

Second Quarter Fiscal Year 2025-26
(October, November, December)

Robert Asztalos
Director

Ron DeSantis
Governor

The Agency for Persons with Disabilities (APD) supports individuals with disabilities and their families in living, learning, and working within their communities by creating multiple pathways to possibilities. APD provides a variety of social, medical, behavior, residential, and therapeutic services to Floridians with developmental disabilities. The eligibility criteria are identified in Florida Statutes and rules and includes Floridians who are diagnosed with severe forms of autism, cerebral palsy, spina bifida, intellectual disabilities, Down syndrome, Prader-Willi syndrome, and Phelan-McDermid syndrome. Individuals eligible for APD services must be domiciled in Florida, be at least 3 years old, and have a diagnosed developmental disability that occurred before the age of 18.

Historical Overview

Since July 2013, APD has implemented the Developmental Disabilities Home and Community Based Services Individual budgeting waiver known as iBudget Florida waiver. This waiver provides services in community settings as an alternative for individuals who would otherwise meet the level of care of individuals served in Intermediate Care Facilities. As of December 1, 2025, the iBudget Florida waiver program currently has 36,521 Floridians enrolled and there are 18,526 individuals in a pre-enrollment category.

Applicants for iBudget Florida waiver services are individually reviewed for eligibility and need. Clients seeking iBudget Florida waiver enrollment are assigned a pre-enrollment category based on their individual circumstance per Section 393.065(5), Florida Statutes. A listing of pre-enrollment categories and their descriptions are as follows:

- Category 1: APD eligible clients who are in crisis situations as described in rule 65G-1.047 Florida Administrative Code. This includes individuals who are homeless, a danger to self or others, or their caregiver is unable to provide care and no other resources are available to meet these immediate needs.
- Category 2: APD eligible clients who have an open case in the child welfare system at the time of permanency or turning 18 while in the foster care system.
- Category 3: APD eligible clients in one of the following situations:
 - Caregiver has a documented condition that is expected to render the caregiver unable to provide care within the next 12 months and no alternate caregiver is available, but one is required.
 - Client is at substantial risk of incarceration or court commitment without supports.
 - Client has documented behaviors or physical needs that place them or their caregiver at risk of serious harm and other supports are not currently available to alleviate the situation.
 - Client is identified as ready for discharge within the next year from a state mental health hospital and requires a caregiver, but no caregiver is available, or caregiver is unable to provide the care needed.

- Category 4: APD eligible clients whose caregivers are 60 years of age or older, a caregiver is required, but no alternate caregiver is available.
- Category 5: APD eligible clients who are expected to graduate within the next 12 months from secondary school and need support to obtain a meaningful day activity, maintain competitive employment, or to pursue an accredited program of postsecondary education to which they have been accepted.
- Category 6: APD eligible clients who are 21 years of age or older who do not meet the criteria for category 1, category 2, category 3, category 4, or category 5.
- Category 7: APD eligible clients younger than 21 years of age who do not meet the criteria for category 1, category 2, category 3, or category 4.

Glossary of Terms Used in Report

APD - Agency for Persons with Disabilities

CDC+ Program - Consumer-Directed Care Plus Program

iBudget Waiver - Developmental Disabilities Individual Budgeting Home and Community Based Services Waiver

IFS - Individual and Family Supports

This report is prepared and distributed pursuant to section 393.0662(12), Florida Statutes.

“The agency shall submit quarterly status reports to the Executive Office of the Governor, the chair of the Senate Appropriations Committee or its successor, and the chair of the House Appropriations Committee or its successor which contain all of the following information:

- (a) The financial status of home and community-based services, including the number of enrolled individuals receiving services through one or more programs.
- (b) The number of individuals who have requested services and who are not enrolled but who are receiving services through one or more programs, with a description indicating the programs under which the individual is receiving services.
- (c) The number of individuals who have refused an offer of services but who choose to remain on the list of individuals waiting for services.
- (d) The number of individuals who have requested services but who are receiving no services.
- (e) A frequency distribution indicating the length of time individuals have been waiting for services.
- (f) Information concerning the actual and projected costs compared to the amount of the appropriation available to the program and any projected surpluses or deficits.”

1. Services Received by Waiver Enrollees

Tables 1a, 1b, 1c and 1d provide information on services received by persons enrolled on the iBudget Florida waiver or enrolled in the CDC+ program through APD.

Services Received by Persons in Categories 3 – 7

Table 2a lists APD services received in October, November, and December 2025 by individuals who requested enrollment in the iBudget Florida waiver or the CDC+ program but were not enrolled as of the first day of the respective months. Funding for these services came from General Revenue (GR) and the Social Services Block Grant (SSBG). Individuals ages 22 or younger may also receive services from the Florida Department of Education, Medicaid State Plan, and other state and local resources.

Table 2b provides client counts of people in pre-enrollment categories 3-7 who received APD services (see Table 2a) or Medicaid State Plan services. The APD services are provided with state GR and SSBG funds. Because some clients received both APD and Medicaid State Plan services, the client count in the fourth row is an unduplicated total rather than a sum of the two prior rows. The last two rows in the table provide information on clients in categories 3-7 who received neither APD services nor Medicaid State Plan services. Please note, some clients captured below are not currently eligible for Medicaid State Plan services.

Table 2b: Client Counts of Non-Medicaid and Medicaid State Plan Services Received by Clients in Categories 3-7 as of the first of each month*
