

WSC ADVISORY #2021-013
FISCAL YEAR 2022 PLANS AND SERVICE AUTHORIZATIONS

ACTION REQUIRED

EFFECTIVE DATE: APRIL 23, 2021

Fiscal Year 2022 Plans have been created and are approved in APD iConnect for most APD clients. Waiver Support Coordinators (WSCs) and CDC+ Consultants may now log in to APD iConnect and review FY 2022 Plans for all clients on their caseload.

When reviewing a consumer's FY 2022 Plan, please check for the following:

- Accuracy of annualization of services
- Service authorizations generated accurately
- Solo Support Coordination correctly removed from Plan – Do not add Solo Support Coordination to a FY 2022 Plan
- No FY 2022 Plan created – Please contact your Regional liaison for assistance with creating a FY 2022 Plan

Regardless of the service provider's access to APD iConnect, the WSC must provide service authorizations to all service providers by June 1, 2021. As a reminder, WSCs must use the iBudget service authorization report. Refer to instructions found in [WSC Advisory 2020-024 iConnect Service Authorization Report](#).
